

are currently in this country illegally, setting them on a path to citizenship. It is changing things so it will be more difficult to deport felons, even felons who have committed felonies.

My goodness, if you are not going to deport a felon who has committed a felony, who are you going to deport? You are taking away the flexibility as to whether you can deport them or not.

In this bill, we are giving free Pell grants, which are the grants we give to people to go to college. We are giving these away to illegal immigrants. I think this is such a bizarre decision because it is not difficult to find Americans who are \$30,000, \$40,000, \$50,000 in debt because they are regular, middle-class, hardworking families, but we are giving the people who come here illegally free college.

I just think that it is such a bizarre decision, but it goes to the apparent attempt of the Biden administration and the majority party to do all they can to get as many people here as possible. I will point out, in this bill there was no money for new Border Patrol agents, which is another green light to have more people come here.

Right now, the drug gangs will use this information, perhaps on ads on Central American television, to tell people now is the time to give the drug gangs \$3,000, \$5,000, \$8,000 to come to the United States.

A couple other comments on what is going on at the border: Last time I was down there, I saw on the path leading to this country, thrown-away identifications—like driver's licenses being thrown away.

You have to ask yourselves, if people are coming to this country and throwing away their identification from Honduras, from Venezuela, from Brazil, wherever, why are they doing that? Why do you not want people to know what name you operated under in your prior country is? I can only think because you are running away from something in the past. This is common among the people that are coming here now.

There are two other things I am going to point out for America, one is: They should weigh in with Congress on this significant bill. We are having the government take care of all the three- and four-year-olds.

As I said before, insofar as we have flaws in our education system, it is more in the middle-school area, not the preschool area. Traditionally, in this country we are supposed to be a country of strong families in which parents raise their children. It is a fundamental change, I think, in the role of government for Congress to pass a law saying from here on out it is up to the government to take care of the three- and four-year-olds.

The other thing I want America to look out for is 85,000 IRS agents. That is such a massive amount. I used to do taxes. I am somewhat familiar with audits. It is not going to be pleasant for Americans, and at a time when every

business I can think of—manufacturing, tourism, agriculture, medical field—everybody is short of people to work.

And how are we responding? Let's take 85,000 people and have them work for the IRS. Manufacturing needs those people. Hospitals need those people. Why in the world, 85,000 IRS agents? And, of course, the amount of jobs that will be necessary is multiplied because if you have more IRS agents poking around the businesses, you have to hire more accountants to deal with the IRS agents.

So that is a very strange decision. But to me, it shows that this administration wants to be the surveillance administration. And that is another fundamental change in the way I think our forefathers imagined this country or the way this country should be.

Madam Speaker, I yield back the remainder of my time.
